Non-small cell lung cancer, stained with PD-L1 BOND Ready-to-Use Primary Antibody (73-10), PA0832

Non-small cell lung cancer, stained with PD-L1 BOND Ready-to-Use Primary Antibody (73-10), PA0832

PD-L1 (73-10) antibody for BOND, providing you with the freedom and flexibility to develop the tests you need.

Code	Name	Configuration	Retrieval
PA0832	7 mL Programmed Death-Ligand 1 (PD-L1)	BOND Ready-to-Use	P (HIER)

This antibody is recommended for the detection of specific antigens of interest in normal and neoplastic tissues, as an adjunct to conventional histopathology using non-immunologic histochemical stains.

Deliver results you can rely on, and streamline workflow efficiency.

Novocastra antibodies, in combination with the BOND platforms, provide a fully integrated and automated approach to IHC staining.

Welcome Message

Ioannina University Courses in Pathology (IUCP) are organized in Ioannina, Greece every year. These are postgraduate courses on selected topics of Human Pathology and have been offered since 1996, after the unanimous decision of the Executive Committee (Brussels, June 1995) of the European Society of Pathology, to give the ESP auspices to the organization of the IUCP.

Since the beginning, the aim of the courses is to bring together young Pathologists and Tutors, experts in the various fields of Pathology, as well as to encourage active participation of all colleagues during the discussions following the Lectures and the Slide Seminars, providing an in-depth review of Diagnostic Surgical Pathology. An emphasis is given on morphologic features, newly recognized entities and modern techniques. The Courses have been designed for 45-50 Pathologists and Clinical Colleagues related to the subject.

Starting from 2017, the organization of IUCP has been passed by Em. Prof. NJ Agnantis to the Hellenic Society of Pathology (HSP), and she has been nominated Honorary President of IUCP. For 2020, HSP is offering the 37th IUCP on **Soft Tissue Pathology-Oncology**. The 2020 IUCP was originally planned to be held in Ioannina, from 13-15 of March, but due to the COVID pandemic we were not able to host our distinguished faculty and attendees. Our commitment to training of young Pathologists and to continuing education of senior Pathologists, prompted us to convert the Ioannina-based course to a WEB Scientific event, to be offered from 9 to 10 of October 2020.

We thank the Speakers and Chairpersons who, despite pressing schedules, adapted willingly to the new format of the Course and participated in memorable Sessions. We also thank our participants/students, and encourage them to web-interact during the presentations.

We do hope that the presentations by experts on the field will meet your expectations and will increase your knowledge in this particular field of Pathology. We all greatly miss the in-person interactions during the Sessions, but also during the social events. The latter, together with the high quality of the scientific content have made IUCP famous worldwide. We can only promise that we shall meet again in Ioannina for the next IUCPs to come.
